

Science For A Better Life

Byboost™ Scour-Ex

Scour-Ex is a scientifically formulated replenishing, dietetic feeding stuff, designed to assist in the management of water and electrolyte, essential minerals and energy nutritional stress in cattle, pigs, horses, sheep and other farm animals. Scour-Ex uniquely contains natural fibres, pre-biotics, **nucleotides** and easily absorbed glucose, complex carbohydrates, 1, 2 – Propandiol and easily absorbed Specialised Fatty Acids.

- **ENERGY:** 4 types of energy giving ingredients to help replenish critical energy reserves.
- **PREBIOTICS:** which have been shown to enhance the natural gut micro flora profile
- **ELECTROLYTES:** Promotes the absorption of electrolytes and Glucose compounds thus aiding fluid balance
- **NATURAL FIBRES:** help to retain more fluids in the body/gut and coat the intestinal lining preventing further damage
- **NUCLEOTIDES:** to encourage natural immunity, function, villi condition and mucosal integrity for more efficient nutrient absorption.
- **Vitamins A & E:** to enhance immune function
- **Zinc and Copper:** to replenish minerals lost.
- **No need to withdraw milk from calf, pig or foal.**
- Assists in reducing the severity of digestive stress conditions
- Helps reduce the duration and frequency of nutritional digestive stress conditions

Application

Immediately **before** feeding, dilute 50 g (1 scoop or 1 sachet) of **Byboost™ Scour-Ex** into 1 Litre of clean warm water or milk and feed to the animal via a stomach tube, bottle or teat and if required, once again later in the day. Do not feed more than two doses per animal. If condition persists consult your veterinary surgeon.

Adult Cattle and horses: 50 g immediately and again once later in the day, if required

Calves and foals: 50 g immediately and again once later in the day if required

Pigs: Adult: 50 g immediately and again once later in the day if required

Piglets: 10 g immediately and again once later in the day if required

Sheep/Goats: Adult: 50 g immediately and again once later in the day if required

Lambs/Kids: 10 g immediately and again once later in the day if required.

Do not use water above 40° C.

This is not a veterinary medicinal product. NO WITHDRAWAL PERIOD FOR MILK OR MEAT

Composition

Natural Muco-polysaccharides (Pre-Biotics) Natural active Proteins, Bicarbonate Salt, Citrate Salt, Sodium Salt, Potassium Salt, Flavours, four different energy sources and Nucleotides.

Storage/Precautions:

Between 5-25°C, in the original container. Keep out of reach of children. Although tested, this product may fail for a variety of reasons due to other factors. Seek veterinary advice if unsure. Do not store mixed product. Mix only the amount required at any time. Do not use water of temperature above 40° C. Do not feed more than twice.

Shelf Life

24 months in original container

Pack Size

20 X 50g sachet pack

Science For A Better Life

Byboost™ Scour-Ex

Scour-Ex is 'n wetenskaplik geformuleerde voedsel aanvulling, ontwerp om te help in die bestuur van water en elektroliete, noodsaaklike minerale en energie in beeste, varke, perde, skape en ander plaasdiere.

Scour-Ex bevat unieke natuurlike vesel, pre-biotika, nukleotiede, oplosbare glukose, kompleks koolhidrate, 1, 2 - Propandiol en essiensiele vetsure.

- **ENERGIE:** 4 tipes energie groepe voorsien aan die dier se kritieke energie reserves.
- **Prebiotika:** Verbeter die natuurlike mikroflora
- **Elektroliete:** Bevorder die opname van elektroliete, glukose en ondersteun die vloeistof balans.
Natuurlike vesel: Help om meer vloeistowwe in die liggaam / derm te behou en beskerm die ingewande van verdere skade.
- **Nukleotiedes:** Moedig natuurlike immuniteit, villi en mukus integriteit aan vir meer doeltreffende nutriënt absorpsie.
- **Vitamiene A & E:** Verbeter die immuun funksie.
- **Sink en koper:** Vul verlore minerale aan.
- **Dit word nie vereis dat malk tydens behandeling onttrek word nie.**
- **Verminder die effek van die spysverteringstelsel stremming.**
- **Versnel die herstel proses.**

Toediening

Los 50 g (1 sakkie) **Byboost™ Scour-Ex** onmiddellik voor voeding in 1 liter skoon warm water of melk op en voer die dier met 'n maagbuis, bottel of speen. Indien nodig mag 'n tweede behandeling later in die dag gegee word.

Moenie meer as twee dosisse per dier voer nie. Indien die toestand voortduur raadpleeg U veearts.

Beeste en perde: 50 g onmiddellik en 'n tweede behandeling later indien nodig.

Kalwers en vullens: 50 g onmiddellik en 'n tweede behandeling later indien nodig.

Varke: 50 g onmiddellik en 'n tweede behandeling later indien nodig.

Varkies: 10 g onmiddellik en 'n tweede behandeling later indien nodig.

Skape / Bokke: 50 g onmiddellik en 'n tweede behandeling later indien nodig.

Lammers / Boklammers: 10 g onmiddellik en 'n tweede behandeling later indien nodig. **Moenie water bo 40° C gebruik nie**

Dit is nie 'n geneesmiddel nie. Geen onttrekkingsperiode vir melk en vleis

Samestelling

Natuurlike Muco-polisakkariede (Pre-biotika), aktiewe proteiene, bikarbonaat sout, sitraat sout, natrium sout, kalium sout, vier verskillende energiebronne en nukleotiede.

Berging / Voorsorg:

Berg tussen 5°C - 25 °C in die oorspronklike houer. Herseël die sakkie na gebruik. Hou buite bereik van kinders. Hoewel breedvoerig getoets, mag hierdie produk faal as gevolg van 'n verskeidenheid redes, in so 'n geval raadpleeg u veearts indien. Moenie reeds vermengde produk stoor nie. Meng slegs die regte hoeveelheid wat vereis word op enige tyd. Moenie water gebruik met 'n temperatuur bo 40°C nie.

Raklewe

24 maande in die oorspronklike houer
